 Daily Huddle Chunking Copywork and Chunking

The Cave of Lascaux is one of the most famous caves in the world. One day, four French teenagers were exploring. When the boys eased into a hidden cave, they were shocked! It was painted! Bison, deer, horses, cows, and bulls seemed to leap across the cave walls and ceilings. Some pictures showed people hunting animals. Thousands of years before, ancient people had painted these pictures. They had used minerals to make paints. They left behind a visual treasure.

Section 2: Copywork and Chunking

Turn the page to complete your 10 minutes of copywork. Start your copywork with the sentence you find most challenging. Afterward, chunk your writing.

SPOTLIGHT

The English language was developed from several other languages. This has resulted in a very rich language with many interesting words and (sometimes knotty) spellings. Many of these spellings are actually clues about the history of words!
