

## YEE HAW! BOOKS FOR BOYS

1) Most boys do not have much desire to read when they are young – activity is more important

- Have them see YOU read for pleasure and information
- Find books that match their interests or books that might start a new interest
- Choose books at an appropriate skill and vocabulary level
- Get them fired up about all that can be learned from books
- Don't push reading for long periods of time – 15 minutes a few times a day is good for younger readers
- Consider vision therapy if reading continues to be difficult past age 10-12 ([www.visiontherapy.com](http://www.visiontherapy.com))
